新年快樂 and 恭喜發財!

Welcome, Wongs, to the Year of the Rat! When I learned that Rats are treasured in certain cultures and represented with affection, rather than disgust, in much folklore from around the world, it felt like a great reminder to always take a step back and remember that there are perspectives other than the ones we are accustomed to. A former colleague of mine once pointed out that rats make amazing pets because they are smart, empathetic, and most surprisingly, they are very concerned with cleanliness! So think twice before you call someone a dirty rat or scold someone for "ratting" you out. Rats are remarkable creatures and apparently are good company for adults and children alike. Happy 2020 - don't get lost in the rat race this year!

-C.W.Y.

The Rat is the first of all the zodiac animals. According to one myth, the Jade Emperor said the legendary order of animals would be decided by the order in which they each

arrived to his party. Quite the thinker, Rat tricked Ox into giving him a ride to Jade Emperor's soiree. Then, just as they arrived at the gates, the cunning Rat scampered down and landed ahead of Ox, securing his own place as the winner.

The Rat is also associated with the midnight hours of the day, and in terms of yin

(internal energy) and yang (physical strength), the Rat is yang. In addition, Rat represents the beginning of a new day. Western culture and media tend to scorn the Rat as a dirty animal who lives in the shadows and scavenges off others, but in Chinese culture, rats are held up as a sign of wealth, surplus, and fertility.

Hi WKHT Members,
Xin nian kuai le! Happy New Year! Welcome to the Year of the Rat.

As we look back at last year, the Year of the Pig, we remember the highlights: We had our first

Open House at the new clubhouse on Hauoli Street; completed the Legacy Monument at Manoa Chinese Cemetery, and initiated it with our first Ching Ming ceremony; we also had interesting new activities including a ride on the Hawaiian Railway Society train from Ewa to Ko'olina, an exclusive viewing of "The Lion King," and a special tie-dye workshop, where shirts, towels, and other materials were turned into decorative works of art. Last but not least, we are financially stable. Our apartment rentals continue to provide revenues for our activities, general meetings, and banquets, even though we are upgrading electrical lines in our University apartments.

As we transition into the Year of the Rat, WKHT will continue to bring you activities and events that you can participate in. Please check your yearly calendar to see the monthly activities. One of the special activities this year we hope will be to rent an entire theater for an exclusive WKHT movie, this time Mulan, with live actors and actresses - a treat you and your

family cannot miss. Our social committee will be coming up other unique and interesting activities later. Stay tuned!

Aloha,

Art
